THE HEALTH & SOCIAL ISSUE

Menstruation

Menstruation is an important aspect of human life and a critical biological, physical and social transition for girls. Yet, for many girls and women around the world menstruation is often accompanied by a loss of dignity due to lack of menstrual cycle knowledge and limited access to well-designed and effective menstrual hygiene products.

Our Solution

We have carefully designed the Koree hygiene device product and educational content to nurture young women through the transition of their first menstrual cycle.

Kalitasha **empathises** with, **designs** for and **nurtures** young women at the **start of their menstrual cycle.**

EDUCATIONAL MESSAGE

Meet Koree

Our menstrual cycle educational Message is based on Koree, who is a fictional girl that guides others through the experience of first menstruation.

THE HYGIENE PRODUCT

Koree Shell

The ergonomic washable and Reusable Koree shell closely hugs the pubic contours, in order to accommodate a wide range of movements of the body.

Koree Pad

The washable and reusable Koree pad is slotted into the Koree shell in order to collect menstrual discharge.
